We're Going on a Bear Hunt!

We love this story and wonder how the family's journey might have been a little easier, if perhaps they had a way to get over all those obstacles! What if there had been a bridge over that deep, cold river? Can you take on the challenge of designing bridges to go over obstacles like the ones in the story?

The story "We're Going on a Bear Hunt!"

If you have the book at home you could read the story together. If you don't have the book at home, you can see the author Michael Rosen, reading his book in this video:

<https://www.youtube.com/watch?v=0gyI6ykDwds>

And if you like the story, how about joining in with this action song version of the story:

Telling the story "We're Going on a Bear Hunt!"

Once you have read the story, can you write down what happens in your own words? You could use this story map template to help you if needed:

<https://www.twinkl.co.uk/resource/t-t-22252-bear-hunt-story-map-activity-sheets>

If you are feeling even more creative you could make puppets to tell the story and put on a show for your family!

Time to get active!

Have a go at this yoga class from Cosmic Yoga, based on the story "We're Going on a Bear Hunt!"

ROCHESTER
BRIDGE TRUST

We're Going on a Bear Hunt!

Getting over obstacles – time to get practical!

Imagine you had to cross that deep, cold river in the story... it would be much easier if there was a bridge there! That's what bridges do – help us to get over obstacles. Not just people on foot like the family in the story, but bridges take cars over train tracks and trains over roads, people over roads, and cars over rivers and gorges. Have a look at some of the pictures below for inspiration. Can you create an obstacle – a river, train track, road or a hazard, and then build the bridge to go over it? Use your creativity and build your bridge using toys, recycling or even natural materials in your garden.
